PROFESSIONAL SUMMARY

Results-driven **Software Engineer** with over **3 years of experience** in designing, developing and optimizing web applications. Proficient in modern frameworks and cloud technologies, with a strong focus on delivering scalable, high-quality solutions. Demonstrated ability to enhance system reliability and performance while collaborating with cross-functional teams. Passionate about continuous learning and adopting innovative technologies.

SKILLS

- **Programming Languages:** PHP, JavaScript, TypeScript
- **Frameworks:** Laravel, ReactJS, NextJS
- **Databases:** MySQL, Firebird
- **Cloud & DevOps:** AWS, Docker
- **Frontend Technologies:** Tailwind CSS, Bootstrap
- **Version Control:** Git, Github

WORK HISTORY

Software Engineer

Automafour Desenvolvimento De Sistemas LTDA - Cachoeirinha, Brazil

September 2021 – April 2024

- Worked extensively with a range of technologies including **PHP**, **Laravel**, **MySQL**, **Firebird**, **Javascript**, **Typescript**, **ReactJS**, **NextJS**, **Tailwind CSS**, **Docker** and **AWS** to build and optimize systems.

- Developed an innovative tax product control system, enhancing financial tracking efficiency.

- Maintained and improved existing systems, reducing bugs and enhancing performance through optimized testing strategies.

- Managed cloud infrastructure and deployments using **AWS** services, ensuring 99% system uptime.

- Collaborated with cross-functional teams to deliver solutions aligned with client needs.

Key Achievements:

- Implemented cloud-based web services, significantly improving system reliability.

- Enhanced system reliability via cloud-based web services.

- Successfully led full-cycle development projects, ensuring timely and high-quality delivery.

Web Developer (Freelancer)

February 2021 – September 2024

- Designed and developed custom websites for small and medium businesses, personal blogs, portfolios and e-commerce platforms.

- Ensure responsive design across various devices using frameworks like **Bootstrap** and **Tailwind CSS**.

- Collaborated closely with clients to understand specific requirements and deliver tailor-made solutions.

Tools & Technologies: HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, Tailwind CSS

Challenges & Solutions:

- Handled unique client design requests by creating custom themes.
- Ensured cross-device responsiveness and optimized site performance.

EDUCATION

Systems Analysis and Development

Estácio De Sá University - Cachoeirinha, Brazil

January 2020 – April 2023

ADDITIONAL INFORMATION

- **Actively contributing to open-source projects on GitHub.**
- **Passionate about continuous improvement and adopting new technologies.**
- **Available for remote and on-site work opportunities.**
